Russ and his team are excellent - the build up to the move was smooth, Russ was flexible when we had to change our date and we felt very prepared on the day. The day itself flew by! The 5 person strong team turned up at 6am to pack up our old house. The transfer to the new house was complete by 3pm! It was amazingly done and I cannot thank Russ and his team enough. Highly recommend using the packing service and removals - second to none. Thanks again!

We moved twice in 2021, first moving into a rented house while we then found a house to buy. We used Moversaurus on both occasions and cannot recommend them highly enough. Russell made the time to come to our house to give us a proper quote at the beginning so that he could see exactly what needed to be moved. He also drove to the houses we were moving to ahead of the moving days, to ensure there would be space to turn the lorries etc. This was important to us as we had used a removal company in the past which failed to do this and then failed to reach the property on the day of the move as it was down a narrow country lane.
